

Advanced Standing

Diploma holders from local Polytechnics and recognised private education institutions can begin their university studies at Curtin Singapore and may be entitled up to 50% credit exemptions, depending on the course units covered from their previous diploma studies.

Gaining credit exemptions will then lower the number of modules they need to study to complete their Bachelor of Commerce at Curtin Singapore, bringing down the tuition fees and duration of study.

If applicants are granted 50% credit exemptions, they may complete their degree in just one year full time study.

Course Intake

Full time and Part time study options is available for all intakes in March, July and November

Find out how you can apply for credit exemptions please email us at info@curtin.edu.sg or call us at **+65 6593 8000**
