A full week of Orientation was held online for our Diploma, Undergraduate and Postgraduate students.

Students received their orientation related documents such as academic timetable, and were informed of the important points to take note as they prepare for their new journey.

Students also had lots of fun with our staff and student leaders, learning the online whiteboard functions and creating their own online orientation group flags based on Curtin’s five core values.

We were very impressed by the creativity and innovation of our students’ artworks!

Overall, it was an exciting and fun-filled experience for everyone, and we look forward to see our students embarking on this new learning journey with us here in Curtin Singapore!
Fresher’s day was organized and managed by our very own Student Committee and student clubs. It was held via Zoom with a total of 160 students including the facilitators who showed up. It was a fun day for our freshies to bond and play different games with our student club leaders. Freshies could also connect with the clubs that they are interested in via their social media accounts.

With the new Circuit Breaker measures that the Singapore government has implemented, our Curtin Singapore Student Events Team has been working tirelessly to generate creative ways to convert physical student activities to online mode and platforms.

This is in line with our new ‘digital campus’ concept, availing all our services like library, career consultation and student activities on online platforms.

Though it generally takes time for students to adapt to the new concepts and fresh ways to continue with their activities, we are greatly heartened to see how our Curtin students have been maximising their social media skills to continue with their student activities.
